Provinc'l Salary Schedule Opposed By Teachers

The March meeting of the Vulcan A.T.A. Local was held in the Vulcan High School on Wednesday, March 27, with a large number of teachers present. Bruce Palk of Champion, the president of the local, was in the chair.

A letter from one of the other locals was read and discussed. This local requested that the Vulcan local support a resolution which it is sponsoring at the annual general meeting in Edmonton to the effect that pensionable service should count from the time that a teacher begins contributing to the pension fund and not from the age of thirty as it does at present. A motion was passed instructing the councillors for the Vulcan local to vote in favor of this resolution at the general meeting.

Among other correspondence was a letter from the insurance company with which the local has a group health plan informing the teachers that the premium rates were being recalculated and would probably be increased. Mr. Palk reported that he had been unable to contact the insurance agent as to this matter, and therefore the local did not have sufficient information to act on this.

Miss Marion MacKay, one of the councillors, reported on the emergency general meeting which she attended in Edmonton on March 9. The meeting was called in view of the fact that the provincial government is investigating the possibility of a provincial salary schedule for teachers. Miss MacKay reported that the more than two hundred councillors who were present from locals throughout the province voted unanimously in favor of a resolution which gives the provincial executive of the A.T.A. the power to act for the teachers of the province in opposing the setting up of a provincial salary scale.

Frank Burchak, the chairman of the salary negotiating committee, reported on the progress of negotiating with the school committee. The report was discussed at some length and resulted in a motion which gives the salary negotiating committee further direction as to the negotiations.

The teachers passed a motion showing that they were in favor of the setting up of a committee in co-operation with the school committee for the purpose of clearing up difficulties which might arise as to the interpretation of teachers' experience and qualifications in placing them on the salary schedule.

Other business discussed included the date of resignations as required by the school act, the setting up of a disciplinary committee, and the matter of noon-hour supervision.

Mr. Palk reported that because of the good attendance at the meetings held in Vulcan the remaining meetings for this year will also be held in Vulcan. The date of the next meeting will be decided by the executive.

assisted by several ladies of the Candlelight Circle and Keystone Mission Class.

King's Drug Store Changes Hands

Announcement is made in this issue that King's Drug Store, operated by Harold King since the death of his father, Errett King, has been sold to W. N. Frickeleton of Edmonton.

Mr. Frickeleton operated a drug store at Irma, Alta., for 30 years before moving to Edmonton two years ago and is a registered pharmacist. Mrs. Frickeleton will assist her husband in operating the store and Mrs. Marjorie Black will remain as clerk.

Hall - Bride Rites Are Solemnized

Spring flowers decorated the altar of the Vulcan United Church for the recent wedding ceremony in which Joyce Elaine Bride, elder daughter of Mr. and Mrs. Harold Bride of Vulcan, exchanged vows with Richard Edvard George Hall, second son of Mr. and Mrs. George Hall of Blackie.

The bride, who was given in marriage by her father, wore a floor length gown of brocade taffeta and tulle with scalloped neckline trimmed with seed pearls and lilypoint sleeves. Her veil of illusion net edged with scalloped lace misted from a cap of brocade and seed pearls. The bride wore her mother's pearls and carried a white Bible, a gift of her aunt, which was mounted with sweetheart red roses and rose buds on white ribbon streamers.

Miss Phyllis Todd was maid of honor while the bride's only sister, Miss Marjorie Bride, was bridesmaid. Miss Todd chose a waltz-length gown of pale blue nylon net and lace with a tiny bolero and bouffant skirt. She wore matching headress of blue and white mitens, and carried a colonial bouquet of blue and white carnations set on white lace.

The bridesmaid wore a gown of coral nylon tulle similar to that of the maid of honor. Her colonial bouquet was of yellow and white carnations set on coral lace.

Attending the groom were Robert Edgerton and Stuart Walbauer, both of Calgary. The guests were ushered to their seats by Hames Hall, brother of the groom, and David Hansen. During the signing of the register, Mr. W. A. Shields sang, "I'll Walk Beside You," accompanied at the organ by Mrs. J. S. Clarke who also played the wedding music.

A reception followed in the Ensign Hall for some fifty relatives and friends and was catered for by the Ensign Ladies' Aid. The hall and tables were decorated with yellow daffodils and spray mums while the bride's table was set under a bower of pink and white streamers and bells.

Rev. J. S. Clarke proposed the toast to the bride to which the groom ably responded.

For their honeymoon trip to Couer d'Alene, Idaho, the bride changed to a blue tweed suit with blue and white accessories. The young couple will reside in the Vulcan district following their return.

Gorbous Making Strong Bid For Berth With Phillies

The Sporting News, an American sports publication, in a story datelined Clearwater, Fla., pays high tribute to Vulcan's Glen Gorbous, in a recent issue. The article is headed "Gorbous Makes Glittering Bid to Grab Phils' Garden Berth," and predicts big things for Glen.

In the first ten days of exhibition games, he was one of the Phils' big guns, and is making a solid bid for the right field berth, and has a good chance of ending up with at least half the job.

After nine exhibition games, Gorbous, who played in just four contests, was leading the team in RBIs with six, had hit two homers and had a .368 average on seven hits in 19 official trips.

He owns one of the really strong arms among present-day National League Outfielders and is more than adequate otherwise as a defensive performer.

It appears Rookie Bob Bowman, a right-handed power hitter, and the southpaw-swinging Gorbous may well divide the job according to the opposition pitching.

Work Progresses On Club House

Members of the Vulcan Golf and Country Club have been spending the last few Sundays installing windows at the new club house. It is expected that the new golf course will be in use this spring.

In the winter it's curling windows, and in the spring, golf windows. You just can't win.

SERVICE BOARD NOTES

H. S. Burnt, Field Supervisor

The Dominion Department of Agriculture have recently announced amendments to the regulations in regard to the control of Brucellosis in Canada. Official vaccination of calves is now allowed from four to eleven months, whereas the age limit was formerly 6-8 months.

They are now announcing a new dried or desiccated vaccine that has been developed for the use of Veterinarians, this vaccine can be kept under ordinary refrigeration for as long as 15 months, whereas the former vaccine was no longer viable after approximately 40 days. In the present fiscal year it is estimated that three quarters of a million calves will have been vaccinated for the disease in Canada. Calfhood vaccination along with testing and removal of infected animals from herds, if continued where it is economically possible to proceed with a test and slaughter program on an area basis as has been announced by the minister. It is not expected however that the testing of female cattle will be started in this area in the immediate future, although the regulations that will apply under the control plan will be announced shortly.

In a survey made in 1955 it was estimated that the national level of infection in Canada was 4.2% of the cattle. In Denmark a testing program was started in 1946 with an estimated 25% of the herds containing infected cattle and by 1954 the infected herds had been reduced to 2% and 1957 has been set as the goal for the eradication of the disease from all herds. The experience in the United States was that in 1935 the level of infection was 11.5%, this was reduced to 2% by 1939 after 33 million cattle had been tested, the U.S. spent \$193,000,000 of public funds between the years 1935 and 1954 on Brucellosis eradication and today seven states and over 700 counties have been declared modified certified areas, and eradication programs are under way in nearly every state and are speeding up the work in the hope of having the entire country declared a modified certified area for Brucellosis by 1960.

It will be readily seen that from the progress being made in Canada and other cattle producing countries that in a few years this dread disease of Undulant Fever in humans and Brucellosis of cattle will be related to its proper place.

The district is glad to welcome home Mr. and Mrs. Alan Fath and sons, who have lived in Calgary the past winter.

Mrs. N. Johnston and Sivert spent Sunday with Mr. and Mrs. Stanley Kane and daughters, at Birchban, and also with friends at Carbon.

Calgary visitors this week were Ivo Love and Mr. and Mrs. Harry Washburn and Philip.

Mr. Stoney, square dance caller, and his wife invited square dancers from each district they call for, to attend a square dance party last Friday evening, March 29, at Picture Butte. Those attending from this district were Mr. and

Mrs. Geo. Gooch, Mr. and Mrs. Orlo Doane and Mr. and Mrs. Harry Washburn.

BRANT

At the Hobbie Show held at Nanton recently, Mrs. Ross Kennedy showed two of her hobbies; one was a most interesting collection of salt and pepper shakers, of which she has about 125 pairs. They ranged in size from minute copper sets, only about a half-inch high to big China apples that would hold a pint. The other hobby was the making of Christmas stockings from felt. The examples and explanations were very attractive and interesting.

Mrs. Earl Bateman was hostess to the Birthday Club on Tuesday evening in honor of her birthday. Eleven members were present. The evening was enjoyed by different games and contests which were very interesting. A lovely lunch was served by the hostess with Mrs. Ernie Green furnishing the birthday cake.

The Brant High School Students' Union are sponsoring an Easter Prom to take place on Friday evening, April 12. The music for the evening will be the Sunquist Orchestra.

Mrs. B. Prater was a patient in High River hospital for two days, undergoing a minor operation on her wrist.

Mr. and Mrs. Gerald Ferguson and family left Sunday morning by car to visit two days with the former's parents, Mr. and Mrs. Ferguson of Camrose.

Mrs. and Mrs. Munroe McKay motored to Calgary Friday to visit the former's parents, Mr. and Mrs. George McKay, the special occasion being his mother's birthday.

Miss Shirley Sellars and her friend, Miss Lorene Bergen, R.N., of Brooks were visiting Shirley's parents, Mr. and Mrs. Frank Sellars for five days this past week.

Fred Burley from Composite High, Red Deer was home for the weekend.

Miss Arlene Parker was home for the weekend.

Mrs. John Evers accompanied her grandson, Bob Sellars, home to visit her daughter, Mrs. B. F. Sellars for the weekend.

Saturday morning Mrs. Gallagher, Mrs. Hunter, Mrs. Kennedy and Mrs. McKay went to Vulcan to attend the County Home and School Institute. Mrs. Gallagher and Mrs. McKay took part on a panel with Mrs. Frey of High River and Mr. Selrag on how to improve relations between Home and Schools and the School Committee. Mrs. Hunter gave a report on the year's work done by this association. Mrs. Andrews, Mrs. Lawson and Mrs. McKay attended in the afternoon at which time the Brant Home and School served tea.

One of the best square dances of the season and the last for this year took place in the Brant Community Hall Friday evening. Ten squares were on the floor at one time. Short of ladies, enough men present for at least two more squares.

There were square dancers present from Calgary, High River, Blackie, Herronton and Brant local.

The Brant ladies served lunch at the finish of the dance.

Ken Dollan was the official caller for the evening. Live music was furnished by musicians from

Calgary.

Variety Show

A packed hall greeted the Variety Show sponsored by the Brant Home and School Association on March 22. Greg Todd, principal of the school, was master of ceremonies. The program opened with "O Canada" followed by the flag song by little Debbie and Gordon Ferguson.

There was a good variety of fine vocal numbers. Solos, duets and groups. The group selections included a chorus from Grade 7, 8 and 9 and a number of boys from Grade 5 and 6. Two action songs featured a quartet of girls, Maureen Olsen, Sharon Smith, Elizabeth and Evelyn McNiven, in old and new and six younger girls, Fay Larsen, Linda Heide, Janice Hunter, Donna Jensen, Sharon and Fanny Ferguson in "Playmates." Duets were sung by Judy and Carolee Bates and by Mrs. G. Thompson and Alana.

Mel Clingman and Lorne McIntosh, playing the guitar and accordion respectively, also sang a duet. Solo selections by Donald Hansen, Fay Larsen and Mrs. G. Thompson completed the vocal part of the program.

Piano solos were played by two talented young pianists, Marilyn Hansen and Earl Mote. There were two tap numbers, one by Merle Wilkinson, who wore a very pretty mauve dress, and another in which Alana Thompson, Lynn Bateman and Twyla Parker in very striking and appropriate costumes sang "In Your Easter Bonnet" and then danced. A pantomime "Love and Marriage" and "Yellow Rose of Texas" done by Ronnie Howlett and Marge Bride was very much enjoyed.

A comedy skit was put on by three aspiring physicians, Jack Ball, Fred Andrews and Jim McKay, assisted by Raymond McBride and Margi Bride. Two recitations, "My Ten Acre Farm" by Alana Thompson and "A Place to Park in the Old Home Town" by Johnny Prater were well done and very amusing. The crowd enjoyed two square dance numbers, done by the Magic Merry Makers of Grade 3 and 4, Maureen Olsen entertained with two accordion selections. A feature high light of the evening was an act by the great magician, Earl Clingman, which was much enjoyed by all present. Crowd and committee in charge appreciated that fact that Mr. Clingman came and put this on after having just being released from hospital the night before.

Last on the program, but by no means least was a two-act comedy, "Housekeeper Wanted." Two bachelors, Ike Alfred Lawson and Abe, Gordon Thompson decided they had had enough of doing their own housework, advertised for and interviewed prospective housekeepers. Olga played by Marie Gallagher who could only cook cabbage soup and fried potatoes and could not wash dishes. Mrs. Sweetley by Phyllis Hunter may have been alright had it not been for her spoiled little boy Gerald (Ralph Thompson). Gertie (Mabel Schultz) was far more interested in dancing than cooking. Mrs. Boggins (Ivey Prater) whose three husbands had died of stomach trouble was too old. Gladys Charming (Avis Thompson) who seemed to be just what they wanted, had only stopped by to ask the direction to Brant.

The Home and School would like to express their appreciation to all those who took part in this program and to the committee who worked so hard to make it a success.

The first aid kit and insurance both
have important roles to play in the
event of accidents.

Each year, the companies writing
accident and sickness insurance in
Canada pay out more than ninety
million dollars (not including auto-
mobile accident costs) to policy-
holders—a mighty bulwark against
unusual financial strain.

It is far better, though, to prevent
accidents and mishaps, rather than to
deal with the treatment of their ser-
ious—and often tragic—after-effects.
That is why insurance companies
are constantly seeking ways to stem
Canada's mounting accident toll.

Safety pays dividends . . . saves
lives, helps to lower your insurance
costs. Be Careful.

THE TALE OF THE LONELY SPRAY RIG

(sitting in the corner because it can't get the parts to keep going!)

Once upon a time, in a land not far distant from this, a farmer purchased a spray rig. He was indeed proud of it. The first year, he made use of it and found to his surprise that everything the maker had said about the rig was true. It sprayed well and truly, and the farmer saw his crops grow in abundance having been relieved of the weeds that once hindered them.

The next year, however, the spray rig would not work. Its pump had to be replaced. But when the farmer tried to locate the maker, he could not. Indeed, he learned that the maker had neither agents nor representatives in the district.

Now the rig lies lonely in the fence-corner. It toils not, neither does it spray. It rusts.

Moral: Your equipment is only as good as the integrity of its manufacturer, and the ease with which you can obtain those small but essential replacement parts. National Grain Company has a representative in your district who is truly interested in keeping your goodwill. He can give you service immediately on sprayers or chemicals of almost every kind. Call on him, won't you?

Mr. and Mrs. Miles Clemmons arrived home on Thursday from a trip to California, when they were guests at the home of their son-in-law and daughter, Mr. and Mrs. Art Kisinger of Covina. They also visited and had supper with Mr. and Mrs. Eric Huskins (nee Nettie Laughren) at Berkeley. At Portland, Oregon, they spent the weekend at the home of Mr. and Mrs. Fred Shafer (nee Lois Umschied). The Clemmons report a very enjoyable holiday in spite of the fact that when they reached Portland, they found out that they had crossed the Golden Gate Bridge just a short time before it was closed, when the earthquake struck, also when they reached Bonners Ferry, they were detoured to Creston as the highway to Kingsgate was banned. These things only make a trip something to remember it by.

GOOD NEWS FOR US

It looks like the U.S. is going to have its smallest wheat crop since 1939.

Latest figures place the total 1957 crop at 810 million bushels. This won't be enough to meet Uncle Sam's domestic and export needs, so Washington will have to dip into its stockpile of one billion bushels of surplus wheat.

A reduction of American wheat surpluses is comforting news for Canadian wheat farmers, says The Financial Post. It could help harden the world wheat price and

is going in the right direction to a solution of the U.S. surplus problem and all the cut-rate "special deals" Washington has been making over the past few years.

A big American wheat crop this year would have made the present situation much worse for Canadian prairie farmers.

The basketball girls would like to thank all those who helped to make their recent project a success. A special thanks to the High School Orchestra, who donated their services. They did especially well on their first attempt at playing together as an orchestra.

Elevator Award For Milo Agent

R. B. Gerding of the Alberta Pacific Grain Company Limited at Milo, Alta., has been awarded a Ten Year Elevator Master Merit Certificate. This award is granted by Grain Insurance and Guarantee Company in recognition of proficiency in the care of grain elevator premises and to earn this, an elevator agent must have a perfect record of ten consecutive years.

This organization for the past twenty years has majored in the inspection of grain elevators, flour and feed mills and other properties, and its service is acknowledged as being thorough and exacting. Winning the award is therefore recognized as a definite achievement by the grain trade generally.

Flax Rotations

In one common short rotation, flax is sown on summerfallow and the next year followed by a crop of wheat, and in the other wheat is sown on the summerfallow and flax as the stubble crop. On summerfallow for the past nine-year period flax has averaged 14.8 bushels per acre and wheat after flax yielded 32.3 bushels. In the other sequence wheat on summerfallow yielded 34.7 bushels and the succeeded flax crop 5.8 bushels. Under present prices the greatest return has been from the summerfallow, flax, wheat rotation.

In another rotation corn is followed by flax and then wheat. A fertility problem has been quite evident in this group of plots. This was partially overcome in 1956 in the corn by the addition of ammonium nitrate at 100 pounds to the acre. The fertilized corn was dark green compared to the short, yellow, unfertilized crop and the yield was almost doubled. The flax after corn has averaged only 7.5 bushels per acre.

In the two other cropping practices, wheat is sown on summerfallow and undersown with a brome-alfalfa mixture. This wheat on summerfallow has averaged over 40 bushels to the acre. The plots in hay are left down for two years then broken. In one group of plots flax follows the breaking then wheat and in the other group this sequence is reversed. The flax on breaking has averaged 13.7 bushels and the wheat after flax 29.9 bushels, and in the other sequence wheat after breaking 34.0 bushels and the flax after wheat 11.6 bushels. It does not appear to matter a great deal which of these two crops is grown first after breaking—but it is noted that the flax as a second crop following the brome-alfalfa mixture is much superior to a second crop after summerfallow. In 1956 flax after breaking yielded 19.9 bushels and wheat after flax 37.9 bushels. As well as these sequences producing such good crops of wheat and flax, the grass-alfalfa mixture has averaged over two tons of hay per acre.

The above information was taken from a recent report received from the Dominion Experimental Station located at Indian Head, Saskatchewan.

Since its beginning in 1938 the Canadian Cancer Society has spent more than \$3,600,000 on cancer research.

Men Who Make Alberta

Since the beginning of time, sickness has been the greatest enemy of man... and, in no other field, has more success been attained than in the struggle to combat disease. A constant, never-ending battle has and is being waged by an army of men whose life has been dedicated to the job of healing their fellow men. Diseases that only a few years ago were horrible destroyers of human life are today only minor causes for concern. Diseases which annually take many lives, are today being brought under control by the men who answer the call of the sick and suffering, anytime, anywhere, in all types of weather.

Unfortunately, as disease is gradually brought under control, man is finding new ways to destroy himself... on the highways... in industrial and home accidents, and in periodic and ever more destructive wars.

So the battle to relieve suffering, to prevent death, to cure the crippled and to teach the maimed to lead a useful life, never ends. Today in Alberta, just as in pioneer times, we turn when tragedy strikes towards the man who by his training and understanding can ease our pain and make us well again. The man whose life is dedicated to the service of others.
